

GEKKOTA OS

The SMH300 is a 2,4 GHz WPAN Hub with an HTML5 rendering engine.

Enriched with the SignMeeting application, it allows you to compose the display of incoming meeting room information using the SLATE106 electronic ink labels. SignMeeting is compatible with collaborative systems such as MS-Exchange, Lotus Notes, Google for Works, and many others.

Enrichi de l'application SignDoor, le SMH300 permet de composer l'affichage d'informations en entrée de portes de bureaux au moyen des étiquettes déportées à encre électronique SLATE106. Enriched with the SignDoor application, the SMH300 can be used to compose the input information of office doors using the SLATE106 electronic ink labels.

The SignDoor application is compatible with an LDAP directory such as Microsoft Active Directory or Briva LDAP for MS-Excel files.

The SMH300 is equipped with a Vesa MIS-E system (100x200) for mounting on a false ceiling.
